HENKE 

Get it done the first time with Henke's Hi-Gate

The Hi-Gate gives the operator the control needed to keep driveways and intersections free of snow, significantly reducing calls and complaints from homeowners.

- Keeps driveways and intersections clear
- Overwhelming public support - results in fewer calls for re-plowing.
- Fits directly next to curb for precise snow removal.
- Year-round use: Can also be used to reduce aggregate loss when grading.
