# RUGGEDLY BUILT > EASY TO MAINTAIN

DESIGNED TO OUTPERFORM and OUTLAST OTHER PRODUCTS,  
THE TALON'S WEAR PARTS ARE ALL BOLT-ON!

HENKE'S NEW TALON V2 SERIES brings greater performance reliability to this heavy-duty attachment. Through testing and production process improvements, reinforcements have been added to make the Talon even more reliable.

# THE SIZE YOU NEED TO GET THE JOB DONE

A GREAT ALTERNATIVE TO USING A GRAPPLE BUCKET, The Henke Talon is engineered to clear brush, debris, leaves, trash and landscape materials by hydraulically opening and closing the bucket claw to collect and compact material. The operator can easily maneuver to open and dump in the desired location. The Henke Talon works with most makes and models of Loaders.

TALON 500 SERIES

TALON 800 SERIES
